PLK Tong Nai Kan Junior Secondary College

The “Through-train” Arrangement 初中高中「一條龍」安排

Po Leung Kuk Tong Nai Kan Junior Secondary College (保良局唐乃勤初中書院) has adopted a ‘through-train’ mode with Po Leung Kuk Vicwood K.T. Chong Sixth Form College (保良局莊啟程預科書院) since 2006. S3 students of the Junior Secondary College with satisfactory academic results and conduct are directly enrolled in the Sixth Form College to continue their senior secondary studies.

Teaching and Learning

Curriculum

The Junior Secondary College

Our curriculum aims to provide students with a solid foundation and the skills that will equip them for senior secondary studies and lifelong learning. Students are offered a balanced and broad curriculum.

Most of the subjects are taught in English. English is considered to be the medium of instruction based on students’ ability in order to provide increased use of the English language and consequently enhancement in the English level of the students.

Curriculum for S1 (2012-2013)	Curriculum for S2 (2013-2014)	Curriculum for S3 (2014-2015)
Chinese Language Putonghua English Language Mathematics Liberal Studies		
Integrated Science	Combined Science	Physics
		Chemistry

Physical Education		
Life & Civic Education		
Other Learning Experiences		

The Sixth Form College

The senior secondary curriculum at the Sixth Form College aims to provide a wide range of elective subjects and flexible subject combinations.

Compulsory Subjects

- Chin. Language
- Eng. Language
- Mathematics
- Liberal Studies
- Physical Education (Non-examination subject)
- Integrated Arts (Non-examination subject)

Elective Subjects

Students may select 2-3 subjects from the following elective subjects:

- Chin. History
- Chin. Literature
- Physics
- Chemistry
- Biology
- Mathematics (Extended module 1)
- Business, Accounting & Financial Studies
- Economics
- Geography
- Tourism & Hospitality Studies
- Health Management & Social Care
- Information & Communication Technology

A.C.T. Curriculum

A.C.T. curriculum aims at providing training for students in awareness, communication and thinking strategies. By collaboration with tertiary institutions, the A.C.T. curriculum can help students to develop multiple intelligence, high-level thinking and communication skills. Students can learn to care about the things around them and develop their own individuality.

Graduation Thesis

In order to equip students to cope with IES (Independent Enquiry Study) of Liberal Studies in senior secondary studies, every S3 student has to complete a Graduation Thesis with guidance and support from teachers. Thesis preparation and writing courses are provided to S2 and S3 students. We hope students can be well-prepared for their senior secondary studies as a result of our IES programme.

Gifted Education

We place a strong emphasis on nurturing students' gifts and talents. We provide enrichment programmes such as multi-intelligence courses, English drama and Mathematics Olympiads.

In the 2011-2012 academic year, our school was invited by The Hong Kong University of Science and Technology (HKUST) to join the Hong Kong's First Secondary-University Dual Program to nurture gifted students in science and mathematics. Our students have the chance to sample campus life and the study mode at university, as well as earn university credits together with students from 20 other secondary schools, e.g. La Salle College. Apart from academic training, we also provide support to students with talent and skills in music, performing arts, sports and other areas.

Mentor System

Student Support

Small teacher to student ratio

About 1:14

S1 students are paired with teachers, as their mentors, to develop one-on-six counselor and friend relationships. Study groups are formed under the support and guidance by the mentors.

Other Learning Experiences

Opportunities for junior students

Opportunities are also enjoyed solely by junior form students. Junior form students have the opportunities to become prefects, MCs, school representatives, even house chairperson, head prefects and the chairperson of the student union. We aim to provide chances for students to enhance their self-confidence.

Student Organizations and Extra-Curricular Activities

To promote an all-around education and develop leadership qualities, we place great emphasis on extracurricular activities. Students can participate in a wide range of uniform groups, community services, interest groups, music and sports groups.
